ADVISORY

The Acute Care Center (ACC) of the Ospital ng Makati in Bel-Air will be closed starting **March 25, 2012** to make way for the construction of a new Full-service Hospital that will cater to the healthcare needs of residents in the First District.

The ACC will limit admission of patients until **March 12** to facilitate transfer of patients to the base hospital in Pembo. **At 12 midnight on March 25**, the ACC will finally shut down its operations.

The construction of the new hospital in District 1 is scheduled to begin this April.

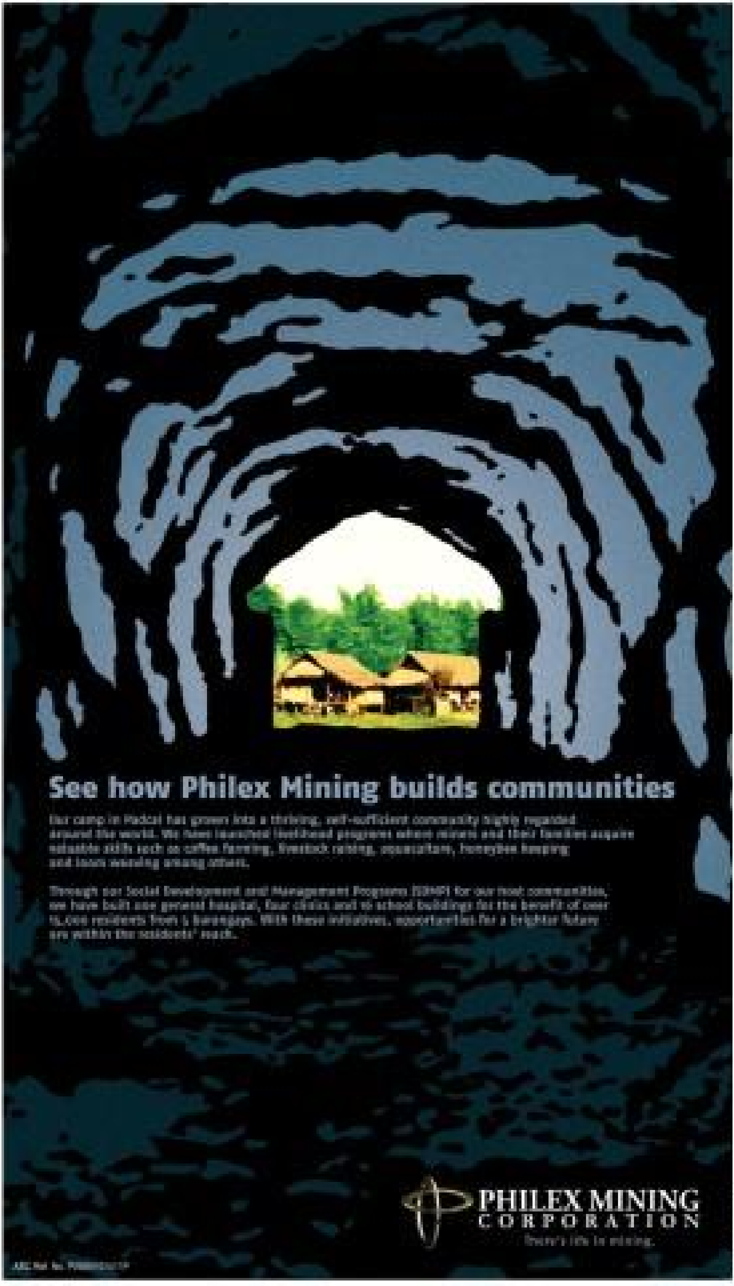
Ombudsman clears DepEd execs in noodle scam

[illegible]



See how Philex Mining builds communities

Our camp in Padcal has grown into a thriving, self-sufficient community highly regarded around the world. We have launched livelihood programs where miners and their families acquire valuable skills such as coffee farming, livestock raising, aquaculture, honeybee keeping and loom weaving among others.

Through our Social Development and Management Programs (SDMP) for our host communities, we have built one general hospital, four clinics and 10 school buildings for the benefit of over 15,000 residents from 5 barangays. With these initiatives, opportunities for a brighter future are within the residents' reach.

Be one of the first to catch a glimpse of the future of tennis at the 23rd Mitsubishi Lancer International Junior Tennis Championship from March 18 to 25, 2012. For more than two decades, Mitsubishi Motors Philippines Corporation has been a big supporter of this grassroots event that helps prepare up and coming tennis superstars for the big leagues.

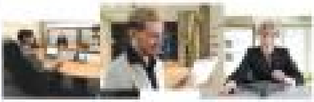
Watch the tournament highlights and final matches on PTV 4, April 8, 2012 (Sunday) from 2:00PM to 3:00PM

*1997 Winner

Late for a meeting

Max spends most of his day attending meetings, if not rushing to and from them. He is always on the move. Any spare time he has, he spends on his computer trying to catch up on work. His family sees him sparingly.

The latest way to meet



Michael is just as busy as Max. Yet his schedule is relaxed. His pace, manageable. He has time for his family – helping his kids with their homework and watching their school recitals. He even plays golf with his friends.

THE DIFFERENCE?

Michael uses **Globe Business Collaboration Solutions** like Audio Conferencing, Web Conferencing and Telepresence to get things done! He takes advantage of the latest mobile technology and the Internet to enable him to conduct and attend meetings without having to be physically there.

GLOBE COLLABORATION SOLUTIONS: MEET ANYTIME, ANYWHERE.

Audio Conferencing

Globe Business **Audio Conferencing** takes ordinary teleconferencing beyond the limitations of the conference room. You can join the conference using your mobile phone. This service rides on a global platform with toll free access to more than 40 countries with up to 200 participants able to join in!

Web Conferencing

Using the power of the Internet, Globe Business **Web Conferencing** enables business owners to join meetings right from their desktop or laptop computers, iPhones, iPads, Android devices and BlackBerry handsets and other Wi-Fi or 3G-enabled devices.

Web Conferencing combines desktop sharing through a web browser, enabling faster distribution of information. That means users are able to transfer large amounts of data easily and securely.

Telepresence

Globe Business **Telepresence** is the most advanced conferencing solution that can closely replicate an "in-person" meeting experience. Especially built telepresence rooms transmit life-sized, high-definition images of participants from various locations. You can use any of the more than 1,100 telepresence rooms located in more than 75 countries and territories worldwide. The experience is so realistic, you'd believe everyone is actually there.

Max and Michael show us two different ways by which we can do business. Take the more efficient, innovative way. Speed up decision-making and time-to-market. Stay ahead of competition. Choose Globe Business Collaboration Solutions.

Experience Globe Business Collaboration Solutions and find out more about Globe Business products and services by calling +63(2)730-1288 or email us at customersupport@globebusiness.com.ph.

NURTURING THE FILIPINO ENTREPRENEURIAL SPIRIT

Filipinos are born entrepreneurs. From your nifty neighborhood food vendors to international export giants, Filipinos have always shown a natural knack for turning business ideas into success stories.

Proof to this is the growing Small and Medium-sized Enterprises (SME) in the Philippines. SMEs account for majority of all business establishments in the country, the largest share in Philippine entrepreneurship.

But growing a business is no mean feat. There are a lot of challenges that entrepreneurs face: finding the right business mix, keeping up with industry changes and trends and most common of all – financing.

And this is why BDO created the Small Business Loan.

Widen your reach
We make it possible for you to open more stores. Given additional capital, you can achieve your goal of setting up another outlet or shop to maximize your business' potential. Whether it be across different regions or just within your locale you can be assured that you will be able to market your products and services in strategic areas of your choice.

Explore new markets
We enable you to expand your business. With extra financial assistance, you can capitalize on developing your business through tapping new and alternative markets or further enhancing your product line. You can foster growth and fast track your road to success by immediately responding to promising business ventures and prospects.

Invest in additional inventory
We allow you to increase your supply to meet growing demand. By means of supplementing your existing resources, you can purchase or produce more stocks to take advantage of new business opportunities. Now doubling or tripling your inventory is easy and hassle-free!

"With BDO's Small Business Loan, we get to cater to the financing needs of different businesses - sole proprietorships, partnerships and even corporations - in various fields and industries. We offer affordable payment terms and flexible interest rates on a short-term or long-term basis, enabling SMEs to keep pace and stay abreast with the ever-changing market landscape," says Virgilio C. Pamatmat, BDO Consumer Lending Group SVP & Small Business Loan Business Head.

Available to businesses with at least P1 million annual gross sales, the BDO Small Business Loan allows you to utilize your assets as collateral to secure financing for a minimum of P1 million up to a maximum of P10 million. Payment terms range from 1 year to 10 years.

With over 700 branches nationwide, applying for a BDO Small Business Loan is quick and easy!

Call us today at 631-8000 or visit a BDO branch nearest you and let BDO be your partner in building your business. We believe in giving small businesses a chance to grow.

Resumé tips... (from B-1)

Religion (and your parents) are not important

A lot of resumes have this. There is a need to list down everything about yourself that it becomes ridiculous. Again, certain things can be left out unless your potential employer specifically asks for them.

Religion is one. Unless it's a school or organization [illegible] there, you don't need to list this down. And people would care less about what your parents are or [illegible]. No one cares what their jobs are, their ages or how they brought you up. The focus of your resume is you and your abilities.

High school doesn't matter, either

It's already enough that you graduated college; you do not need to list down your high school accomplishments during those wonderful youthful days.

Listing down the school name and year you graduated is enough. Were you class valedictorian? Put that down and nothing more. What's more important is your college record and achievements. And even then you still need to practice some restraint on what you'd like the employer to know.

Don't be compelled to throw everything and the kitchen sink. If you were editor or contributor to the college paper that's already a plus. [illegible] Don't list down every seminar you attended, every club you belonged to unless it is relevant to the employer.

Not even your weight, astrological sign or hobby of "reading books"

You absolutely should not mention down how much you weigh, your height, and color of your eyes. Really? Is there a job where eye color is important? Maybe [illegible] doesn't mean anything.

If you're applying as a flight attendant, [illegible]

Listing hobbies and interests are good – if relevant to the job. "Watching movies" and "reading books" are not as useful [illegible]

Keep it simple

What is the ideal resume? One that is simple and just one page long but covering the core (who, of course).

Whenever you go to job fairs make sure your resume is smooth and clean. No photocopies unless the copies are just as clean as the original and do not look haphazardly misaligned with the paper. Enclose it in a [illegible] envelope.

When emailing, make sure to use the cover letter as the body of your email and the resume as an attached word document. Don't forget to include the cover letter on the word document so that when your resume is printed out, it will include [illegible] – will still see your cover letter.

Hopefully, with these simple tips, [illegible] a better chance of making the kind of impact you want. Happy job hunting.

DESIGNED AROUND YOU

VOLVO'S NEW APPROACH TO LUXURY.

THE PURPOSE OF OUR EXISTENCE, THE BACKBONE OF OUR WAYS, HAS ALWAYS BEEN TO DESIGN EVERYTHING AROUND PEOPLE... WHEN WE TALK ABOUT LUXURY, WE DON'T MEAN [illegible] EXTRAVAGANCE AND MEANINGLESS EXCESS. LUXURY, TO US, IS THE EMOTION THAT OUR CUSTOMERS FEEL WHEN THEY ENGAGE WITH US. IT IS THE SIMPLICITY THAT MAKES FOR BETTER UNDERSTANDING, THE FEELING OF SPACE, CONTROL, CALM, COMFORT AND SECURITY – LUXURY IN EVERY SENSE.

Designed Around You (DAY) is the current global thinking of Volvo. It points out the direction of Volvo's future brand development, and the key word is human. Because every detail of a Volvo car draws in a human thought and skill of a designer, a purchaser, an engineer, a marketer and many more. Designed Around You is about interaction, intimacy and the consideration of a person's every need, which translates to the highest form of luxury in life. This essence of designed around you is translated to every aspect of the Volvo brand – from the vehicles to its onwards to the ownership experience.

DETAILS DESIGNED AROUND YOU:
FUNCTIONAL + NATURAL

At Volvo, everything is designed around you; neatly with good functional value.

[illegible]

The Volvo Sensus for example, is an intuitive command centre designed by Volvo. With an integrated thumb scroll on the steering wheel you have full control of the car and all its on-board systems (infotainment, navigation, park assist camera and Bluetooth® communication systems) – with both hands on the steering wheel. Convenient, smart and definitely high-tech – never before has total control been so easy to achieve.

[illegible]

PERFORMANCE DESIGNED AROUND YOU:
ENGAGING + ENTERTAINING

Every Volvo engine is built to do more with less: respond instantly, with plenty of torque throughout its entire rev range and do so using less fuel.

[illegible]

Advanced engine technology such as a new intake system helps increase torque over a wide speed range and cleaner power at high rpm. And with the Dynamic Stability and Traction Control (DSTC) that now features Advanced Stability Control and Corner Traction Control by Torque Vectoring as part of the kit, optimum driving is at the next level. The [illegible] added feature makes it possible to identify skidding tendencies at a very early stage, thus improving handling and stability allowing a more dynamic driving experience.

[illegible]

SAFETY DESIGNED AROUND YOU:
INNOVATIVE + INTUITIVE

Volvo thinks about your safety first always. That is why Volvo cars include a host of preventive safety systems to help stop accidents from happening in the first place. Because when it comes to safety, Volvo always expects the unexpected – and nowhere is this more evident than in urban traffic. That's why the advanced low-speed collision avoidance system City Safety comes as standard in every Volvo vehicle*. If a vehicle suddenly brakes in front of you and a collision is imminent, City Safety will intervene and brake automatically to help stop rear-end collisions from happening. Keeping you safe and adds to the fun of driving.

[illegible]

From making sure you're informed and alert, to cutting edge preventive safety systems, every element of your Volvo works together to help you avoid accidents.

*City Safety [illegible]

LIFESTYLE DESIGNED AROUND YOU:
LUXURY + SIMPLICITY

[illegible]

Comfort and Luxury are synonymous with Designed Around You. That's why with Volvo you can find your perfect driving position with push-button ease. The drivers seat also incorporates a memory function that stores three separate seat and door mirror settings connected to a specific remote control – a feature that's appreciated when the car has several drivers.

[illegible]

This is what Volvo Cars is all about. It is contemporary luxury packed with the strength of Volvo engineering ingenuity. With every Volvo you are assured that your car is Designed Around You.

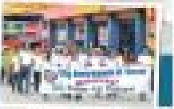
My 3rd Sampaguita

DAVAO RESIDENTS CELEBRATE FOUNDATION DAY WITH THE MOST POWERFUL CONNECTIVITY EVER FROM GLOBE



This year's Araw ng Dabaw promises to be especially memorable, as Globe subscribers in Davao will be able to share the spirit of celebration with a connectivity more powerful than any they've experienced before. This is made possible by a massive investment by Globe in Davao to create the most advanced telecommunications network in the region.

Inaugurated last February, the network modernization program is in line with the goal of total customer delight. Now, Davaoeños can enjoy faster call connection, on time delivery of text message, reduced incidence of dropped calls and accelerated online uploading and downloading.

This infrastructure advancement is the company's answer to the ever-increasing demand for faster, more efficient mobile service. With the interest of its customers at heart, Globe allocated $700-million to set up a network that would advance telecommunications technology by leaps and bounds, placing Globe at par with the world's most advanced telecom companies.

President Benigno Aquino III witnessed the contract signing that marked another significant milestone in Globe's history. Also present at the signing were DOTC Secretary Mar Roxas, Globe Chairman Jaime Augusto Zobel de Ayala, and SingTel Group CEO Chua Sock Koong. President Aquino also led the ceremonial switch-on of the new network.

In the words of Globe President and CEO Ernest L. Cu, the multi-million dollar Davao project is merely a step towards the fulfillment of "a future-proof telecommunication network making great things possible for every Filipino." This is just the beginning. The enhanced connectivity in calling, texting, and online uploading and downloading that Davao is presently celebrating will soon be a countrywide phenomenon.

[illegible]

President Aquino switches on $700-million network modernization roll out of Globe Telecom

President Aquino led the ceremonial switch-on of the massive $700-million network modernization program of Globe Telecom, beginning with Davao City where first implementation of the landmark undertaking was conducted.
